TELEAGENT SYSTEMS NAMES STEPHEN ZADIG VICE PRESIDENT OF OPERATIONS

Former Marvell Executive Brings Operations Expertise to Telegent

SUNNYVALE, CA - August 7, 2007 – Telegent Systems, the provider of high-performance, single-chip solutions enabling free-to-air and pay-per-view mobile TV in cellular phones and portable media devices, recently appointed Stephen Zadig as vice president of global operations.

A seasoned semiconductor executive, Zadig joins Telegent Systems with more than thirty years of operations management experience. Zadig brings to Telegent deep expertise in the development of global operational infrastructure to support manufacturing needs during rapid growth, as well as an extensive background in growing companies from start-up through IPO.

Prior to joining Telegent Systems, Zadig was the founding vice president of operations at Marvell Semiconductor, where during his tenure the company grew from zero to \$300 million in revenue and became the highest ranking quality semiconductor supplier to the hard disk drive industry. Zadig previously held vice president of operations positions at Paradigm Technology and C-Cube Microsystems, where he established and managed vendor relationships to support a fabless business model. While at C-Cube, Zadig was a principal founder of the Fabless Semiconductor Association and served as chairman of the Forecast Committee.

“Steve is an experienced industry veteran who will play a pivotal role in our continued business growth,” said Weijie Yun, president and CEO of Telegent Systems. “We are aggressively scaling production of our mobile TV receivers, and Steve’s expertise enables us to meet growing customer demand while continuing to deliver high quality products.”

About Telegent Systems, Inc.

Telegent Systems is a leading fabless semiconductor company providing high performance, single-chip CMOS solutions enabling free-to-air and pay-per-view mobile TV in cellular phones and portable media devices. Telegent's solutions deliver both analog and digital broadcast reception with unparalleled sensitivity and picture quality in mobile environments, ultra-low power consumption, and a small footprint simplifying mobile device design and manufacture. Telegent Systems is headquartered in Sunnyvale, California, with a subsidiary in China. For more information, visit www.telegent.com.
